Route 3, Box 363

Canby, Oregon

This and That

Writing on January 30th, and the temperature is slightly higher. Last weekend, crossing the Columbia at Portland, ice in the river and a clear view of snow-clad Mt. Hood beyond, more nearly resembled the Arctic than Oregon.

Today, the Dykes Medal for First Violet arrived, from England. There is no way really to express appreciation of this highest award, or of the letter of congratulation and good will, except to say that we are humbly grateful for the honor, and encouragement.

Returning to everyday matters, these intervening months seem merely a waiting period during which we look back on the highlights of the last, or forward to the new ones of the next season. The list of excellent blooms in '56 would be too long to review, but we are anticipating a number of new varieties which we hope will bloom here this year, including Flying High, Fleeta, Bright Halo, Flirtation, Frilly Fringes, Truly Fair, Grace-line, Pretty Gay, Sassafra, White Bouquet, Total Eclipse, Dark Halo and Melodrama. If I had to select but *one* of outstanding color (not seen before, here) it would have to be Lapham's "CB2." A pinkish, rosy red bitone with red beard. A path was worn deep, leading to it! Among the named varieties, the color of Brigadoon was an eye catcher. Also the new red, Chet's 54-144. Bright Starlight (Beattie) is lovely.

Many an hour this winter has been spent in charting pedigrees. Fascinating pastime for any dull day. Notable throughout a number of the charts is the recurrence of Snow Flurry and its parent, Purissima. Perhaps you would be interested in a look at some among the newer varieties attracting attention at present that may be considered "Kissin' Cousins."

Wedding Bouquet (Snow Flurry)

Lady Ilse (Purissima in Helen McGregor, parent of Jane Phillips)

Eleanor's Pride (also from Jane Phillips)

First Violet (Purissima, in Spanish Peaks)

Regina Maria (Purissima in Pierre Menard)

The Citadel (Jane Phillips, again)

Rehobeth (Snow Flurry)

White Peacock (Purissima, in Lady Boscawen)

Whir of Lace (Snow Flurry, though New Snow)
 Caroline Jane (Purissima, in Her Grace)
 Violet Haven (Purissima, in Pierre Menard)
 Swan Ballet (Purissima, in Spanish Peaks)
 Wintergreen (Snow Flurry, in Cliffs of Dover, Purissima, in Cahokia)
 Violet Hills (Purissima, in Her Grace)
 Cascadian (Snow Flurry)
 Violet Harmony (Snow Flurry)
 Galilee (Purissima, through both Cahokia and Helen McGregor)

A complete list would be much longer, but you can see from the above what lively footwork would be required to "get away from" Purissima and Snow Flurry, and what a great deal would be missed by so doing.

We are anticipating a good season 'round among the new seedling plots, etc., and visiting with Chet and others as we did last year. We are fortunate indeed in being near the Grant Mitsch gardens where, beginning with Daffodils and Iris, there is so much to be enjoyed.

Best Wishes to you, too, for a better-than-ever season.

And now it's time for Iris to take over by themselves. Some, bold as Savage Warriors; some, dainty as the elves. And all a glorious Colorcade, lovely as the morn. Or Sunset, or the Rainbow of which their hues are born. Brown tones of forest, deep Sable Night, or High Noon sun of gold! White of cloud or blue of sky these flowers steal and hold. Here for all too short a while, For Sure they cannot know, how we miss them through the months else they would not hasten so.

Single Membership, one year, \$5.00	Triennial, \$12.50
Family Membership, one year, \$6.00	Triennial, \$15.00

We will offer, *free*, a rhizome of First Violet to anyone ^{NEW} sending us their *triennial* membership, with an order of \$6.00, or over.

1957 Iris Introductions

IVORY BLACK. Extraordinarily wide, rounded, flaring, velvety falls, so black at times as to appear sooty. Wide, clean haft. Self beard. Closed standards, "Blackish Violet" in Ridgway. Size, form, substance and clean haft all combine to make this variety a standout. \$25.00

CORAL KING. There are so many pinks! But this one's claim to being worthy of introduction stems from its clear pink color, similar to that of the pink Azalea, Schlippenbachii. Heavy coral pink beard on very ruffled, widely flaring falls. No. 52-6. A lovely. \$25.00

NEXT O' KIN. A relative to be proud of! Glistening white, as in the parent flower, Caroline Jane. Unusually large, of fine form and substance. Tall, strong stalks. Only plicata markings, an attractive dusting of gold and violet on the haft. \$25.00

COPPER SKY. Bright coppery-orange and brown blend. Tall, well branched. Flower of excellent substance, having ruffled, horizontal falls. A *brilliant* orange beard, color of which is blended with golden brown making this the brightest and richest of blends. \$20.00

WHIMSY. An interesting result of plicata and tangerine bearded pink breeding. Twice Cloudcap; and Tiffanja crossed sister seedling of Patrice. No plicata markings on the large smooth flowers. Standards, medium violet. Falls, brown. Intriguing from more than one angle. \$25.00

FANCIFUL. Bright pink infusion through peachy-apricot. Size and substance. Clean haft, with "strawberry" beard. A smooth, flaring flower that is really luscious. \$20.00

Remember: A surprise with orders received before June 15th as stated in *Terms of Sale*, last page.

1957 Hemerocallis Introductions

ETERNAL MORN. A very beautiful Hemerocallis. The size and substance remarkable, as well as the fact that it lasts all day in 104° and is the same at eve as in the morning,—hence the name. Tall stem. We have been interested in Hemerocallis for the past several years, and now have almost as many rows of “Hem” seedlings as Iris! Which will no doubt be a surprise to many. The soft hue of yellow, wide petals and remarkable size and smoothness of Eternal Morn make it one of the best Daylilies we have seen to date. \$25.00

CORAL QUEEN. Medium height, and medium size flower in carrot red and flesh color (Ridgway). Open flower, with 4-inch spread. Silken sheen. Heavy substance. Ruffled. \$20.00

You are well acquainted with Irisnoll originations and I'm sure you will agree that I wouldn't begin Hemerocallis introductions with other than top quality varieties. While I am not yet ready to list them, I have—among others—some fine pink seedlings, as well as the following named varieties: True Charm, Night Hawk, The Kingdom, Premier, Pink Damask, Marie Wood, Coral Mist, Signal Light, Evelyn Claar, Picture, High Noon, Prima Donna, etc.

Last year, some of the pink Hemerocallis seedlings had better color than the best of the pink Iris!

Once there was a garden,
Laziness gave it birth,
That a slab of concrete
Should cover the good earth!
Clack of heels echoing
Where the grass was green.
A bleak expanse of paving—
Few flowers to be seen.
Can you not imagine
How terrible it will be
When a fringed umbrella
Replaces every tree.

Recent DeForest Originations

ARGUS PHEASANT—

(1948) Large, smooth, flaring flowers of golden Argus brown. One of the top ten "favorite Iris" for 1956. Dykes Medal 1952. **\$1.50**

AL BORAK—

(1952) Large, russet copper-tan. Wide, rounded, horizontal falls. **\$4.00**

ALL HONEY—

(1956) Graceful form, having closed standards, and ruffled, flaring falls. Golden honey-colored self. Termed "a honey" from its first blooming, hence the name. **\$15.00**

BLACK ORCHID—

(1950) Large, flaring flower of deep purple. **\$1.50**

BLUE SNOWFLAKE—

(1953) Tallest and largest flowered of this group. Tinted white standards, lined blue. Violet blue falls. Really showy. **\$8.00**

BRIGHT GEM—

(1953) A brilliant beauty in Kaiser brown, overlaid Morocco Red. The brilliant red predominates much of the time. Large flowers. Clean haft. From a cross of Argus Pheasant and Garden Glory. **\$10.00**

BY LINE—

(1954) Height, 40 inches or over, with excellent branching. Rich, deep yellow ground, with bright standards of purplish red. Falls wide, rounded, heavily bordered color of standards. This plicata is proving to be a most interesting parent. **\$10.00**

CANBY SUNSET—

(1955) This apricot from tangerine-bearded pink breeding has size and substance, and is the

parent of a fine new one to be introduced soon. The new one is blended pink, with wide, flaring falls. **\$5.00**

CANYON SKY—

(1954) Standards pale campanula blue. Falls, mulberry purple, with bright bronze haft. **\$7.50**

Pastscript

If I could scatter glowing words
On the air, like seed.
I'd broadcast to the world at large
And it would pay due heed.
But I'm just a plain dirt gardener,
An ordinary fellow
Who leaves it up to you, yourself
Whether an Iris is blue, or yellow.
Also, that you will know as well
Where to get the best.
And will send to *Irisnoll*, today,
And trust us for the rest.
